FOOTBALL SOCCER EQUIPMENT

Goalpost safety has always been an issue of importance. In 2005 the Product and Safety Committee from The Office of fair Trading under took a project to increase the awareness of safety and to offer guidance on proper maintenance when using and handling Soccer goal equipment. The outcome of this was the Australian Standard 4866.1 We are constantly trying to design safety into our designs. Our extensive range of aluminium goals, for example, has been designed with safety and ease of movement in mind. directions.

Soccer Goals Senior

Steel Socketed Goals

Standard Steel Socketed Goals

60mm OD tubular steel. Set of 2 goals complete with sockets. Powder coated white.

- 2760 Senior
7.32 x 2.44m (24' x 8')

Ground Anchor

16mm Steel powder coated green.

Sand Bag

Blue pvc filled with sand
Total weight 2.5 kg when filled.

MOBILE BALL STOP SAFETY SYSTEMS

Fixed ball stop and fencing systems can be expensive and leave little room for a change of heart?

Optimise the use of your valuable sports ground space with the new Movable Ball Stop developed by Edwards Sports. In response to demand from Clubs and Sports Centres we have developed a non-permanent ball stop system that helps to maximise pitch care but does not cost the earth.
